

Exclusive Time Nest Box Promotion Offers Mail-in Order Form

PLEASE READ OFFER DETAILS BEFORE ORDERING

- Only BRAW members as of March 1, 2023, with a Wisconsin address qualify for these offers.
- This is a limited time offer lasting from March 1, 2023, and ending on April 30, 2023.
- The offers will remain in effect as long as supplies last. Please be patient as volunteers are fulfilling orders.
- There are two choices for obtaining the nest boxes.
 1. Pick them up yourself and forego the shipping fee
 2. We can ship boxes to your specified address, but we require a \$25 fee to cover shipping the boxes.
- *We cannot ship the boxes without charging a shipping fee. It's a good deal given that the boxes are free of charge.*
- We will have similar offers with nest boxes and predator guards available at the state convention in September.

OFFER DESCRIPTIONS

Below are the four-nest box promotion offers. We make these special deals to encourage our members to put up more nest boxes. Our goal is to put up 223 new nest boxes in 2023.

Nest Box Replacement Offer

Any qualified member can request up to three new nest boxes with predator guards to replace worn out old boxes. This program makes upgrading with approved design boxes easy and affordable

Cemetery Installations Offer

BRAW would like for members to set up new mini trails of no more than three nest boxes each in rural and small-town cemeteries. These boxes are convenient to monitor and provide visibility for BRAW.

Carol McDaniel Legacy Program

These boxes are reserved for folks *who want to recognize* her many contributions to BRAW and bluebirds. You *must agree* to supply a description of the general nest box locations of (i.e. Street/Park/Cemetery or GPS), and must provide monitoring data at season's end so we can add the data to our annual report.

Park Place Promotion

Many towns, cities, townships, and counties have parks and golf courses with open spaces that are ideal habitat for bluebirds. Being able to offer the park or course supervisor three free nest boxes for an introductory test could lead to a larger trail being installed. With this program we *require* you to let us know the name of the public place where the nest boxes are sited.
